

504202 General Mathematics for Administrative & Financial Studies Students

[3 cr., 3, 0] Essential Mathematics for Administrative and Financial Sciences has become established as one of the leading introductory modules on mathematics for students of these subjects. It combines a non-rigorous approach to mathematics with applications in economics and business. The fundamental mathematical concepts are explained as simply and briefly as possible, using a wide selection of worked examples, graphs and real-world applications.
